Slides: Randomize slide order

Note that when slides are showing randomly, you can adjust the frequency of each of your slides.

Adjust automatically

When using plannings in the Storyboard Lite in combination with Eye-Intelligence's playlists, you might need to limit the project duration. Here you can adjust this duration. The project will loop until it reaches the duration.

Color Picker: Click in the black area to choose the color, and click Apply.

Other Fonts

Character: Let's choose a simple and clear typeface.

The seasonal

Character: To start off, I want to talk about the beer of the season.

Options

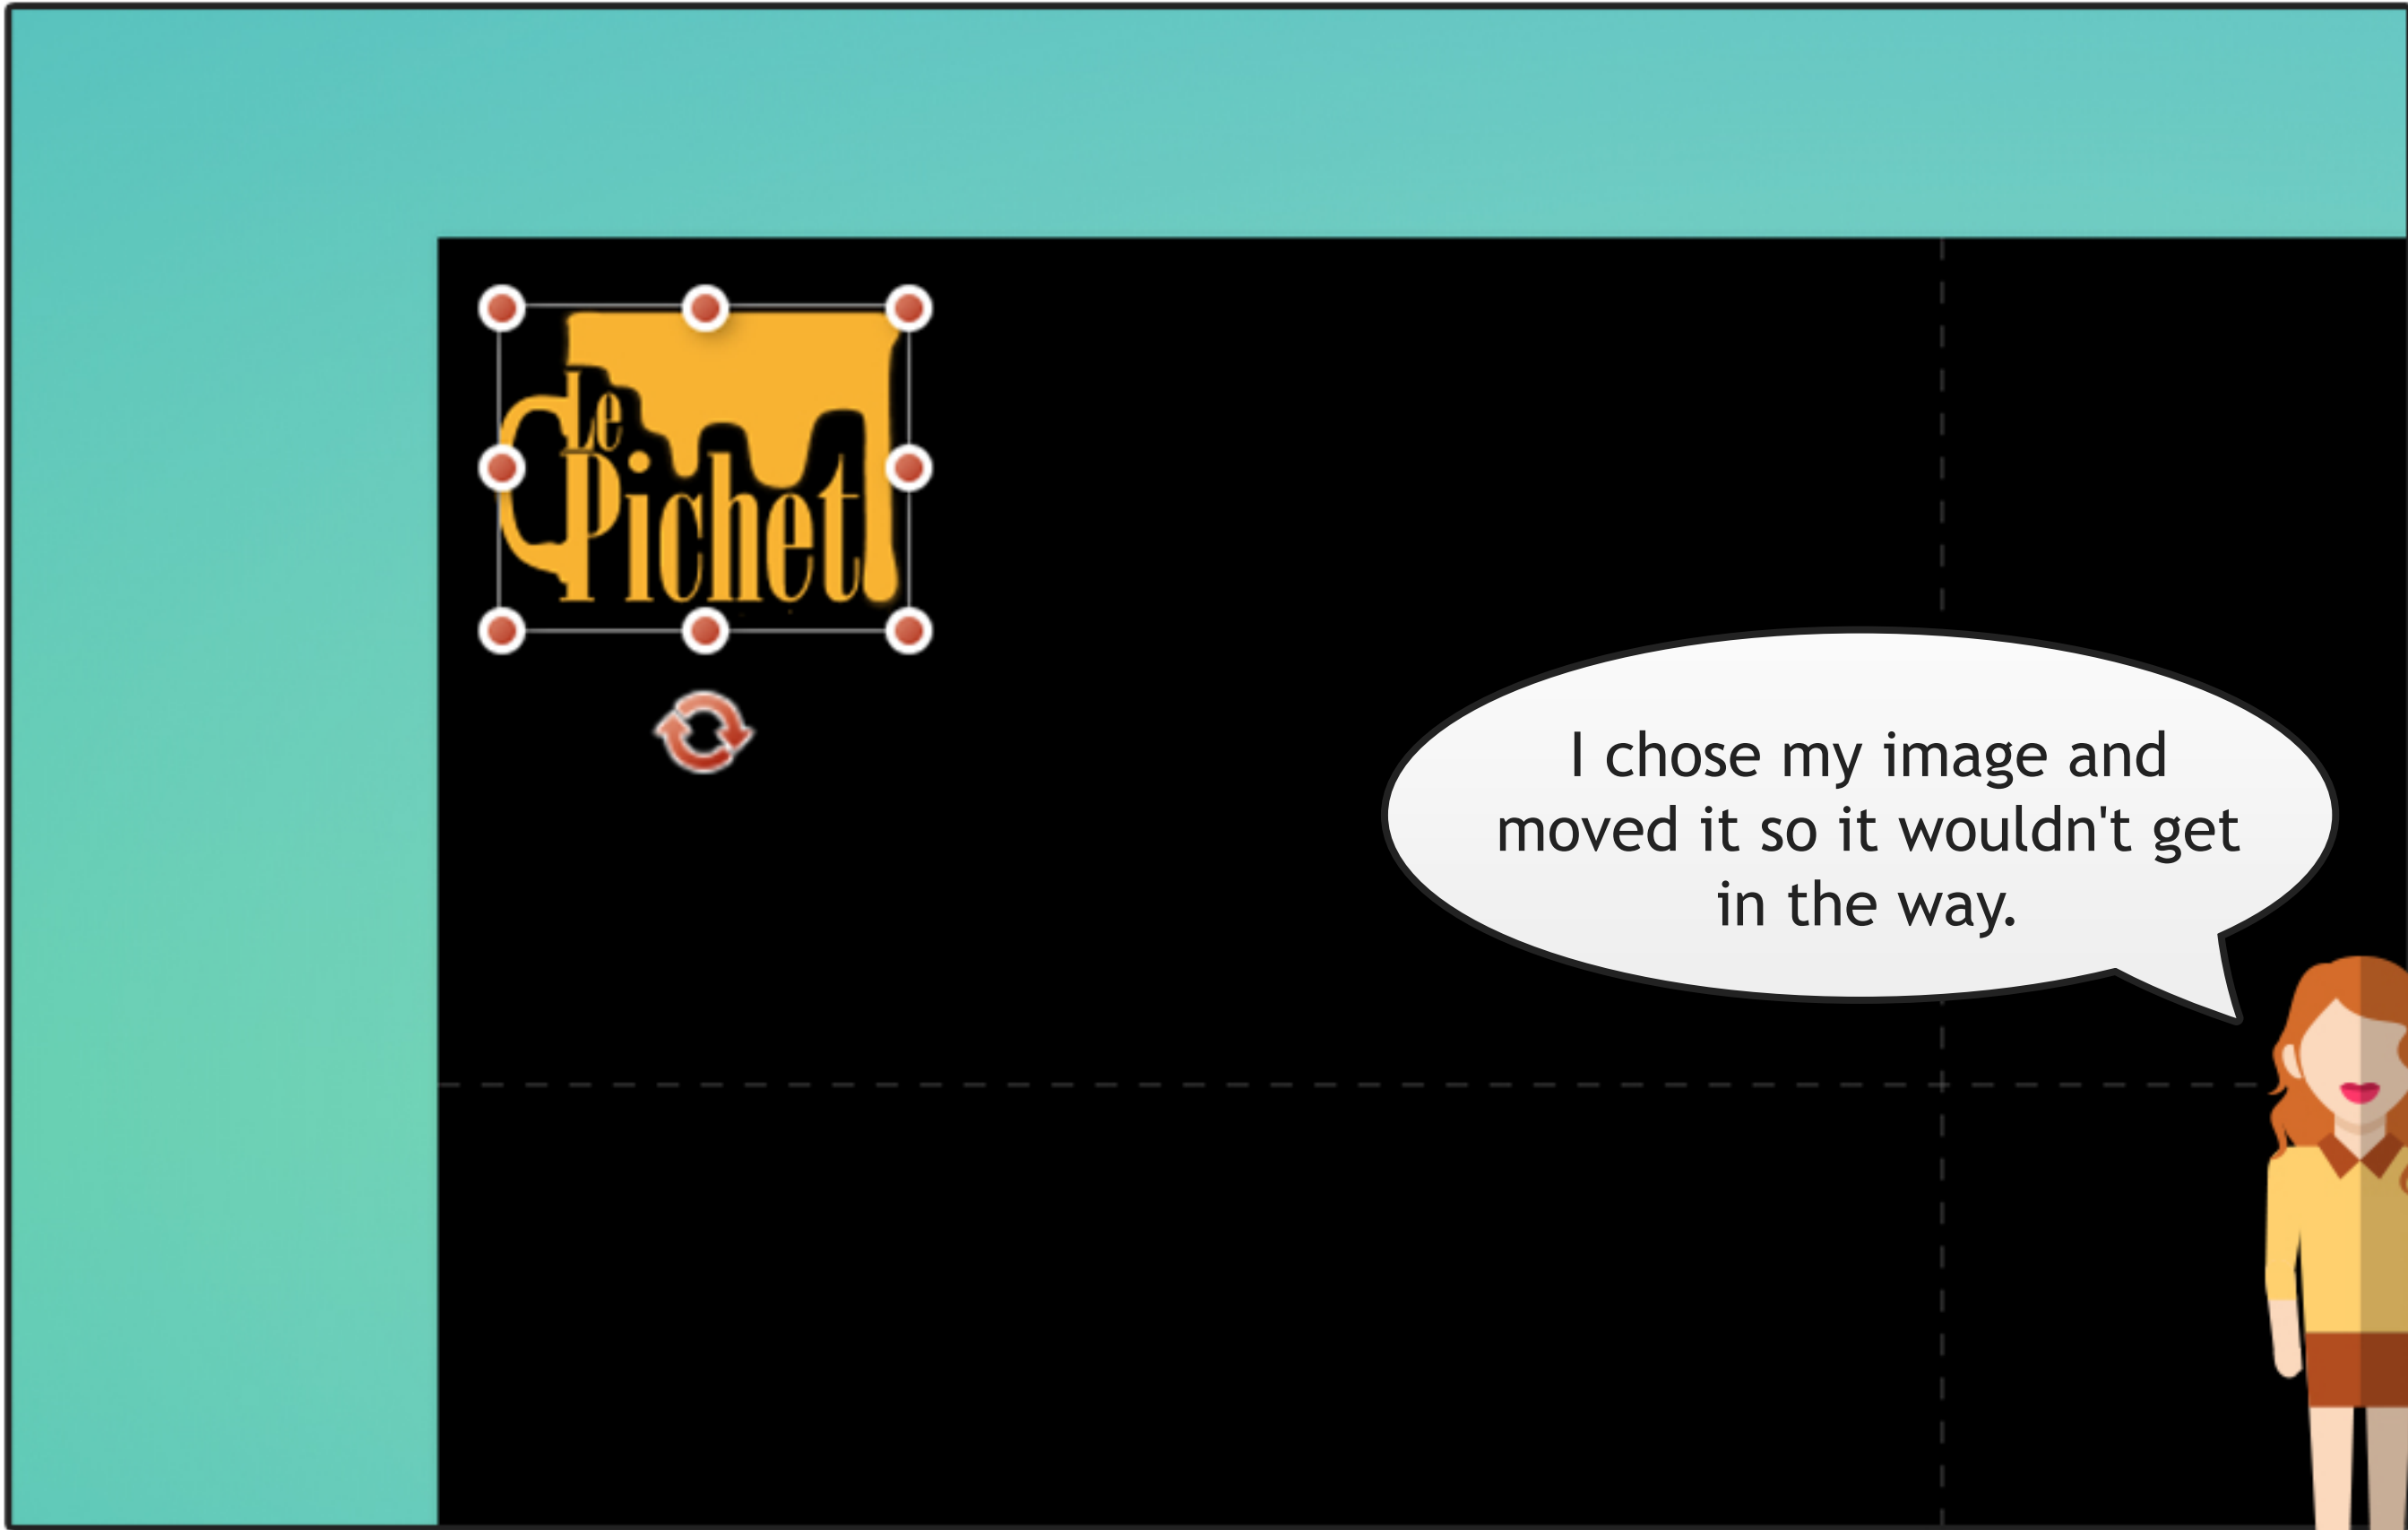

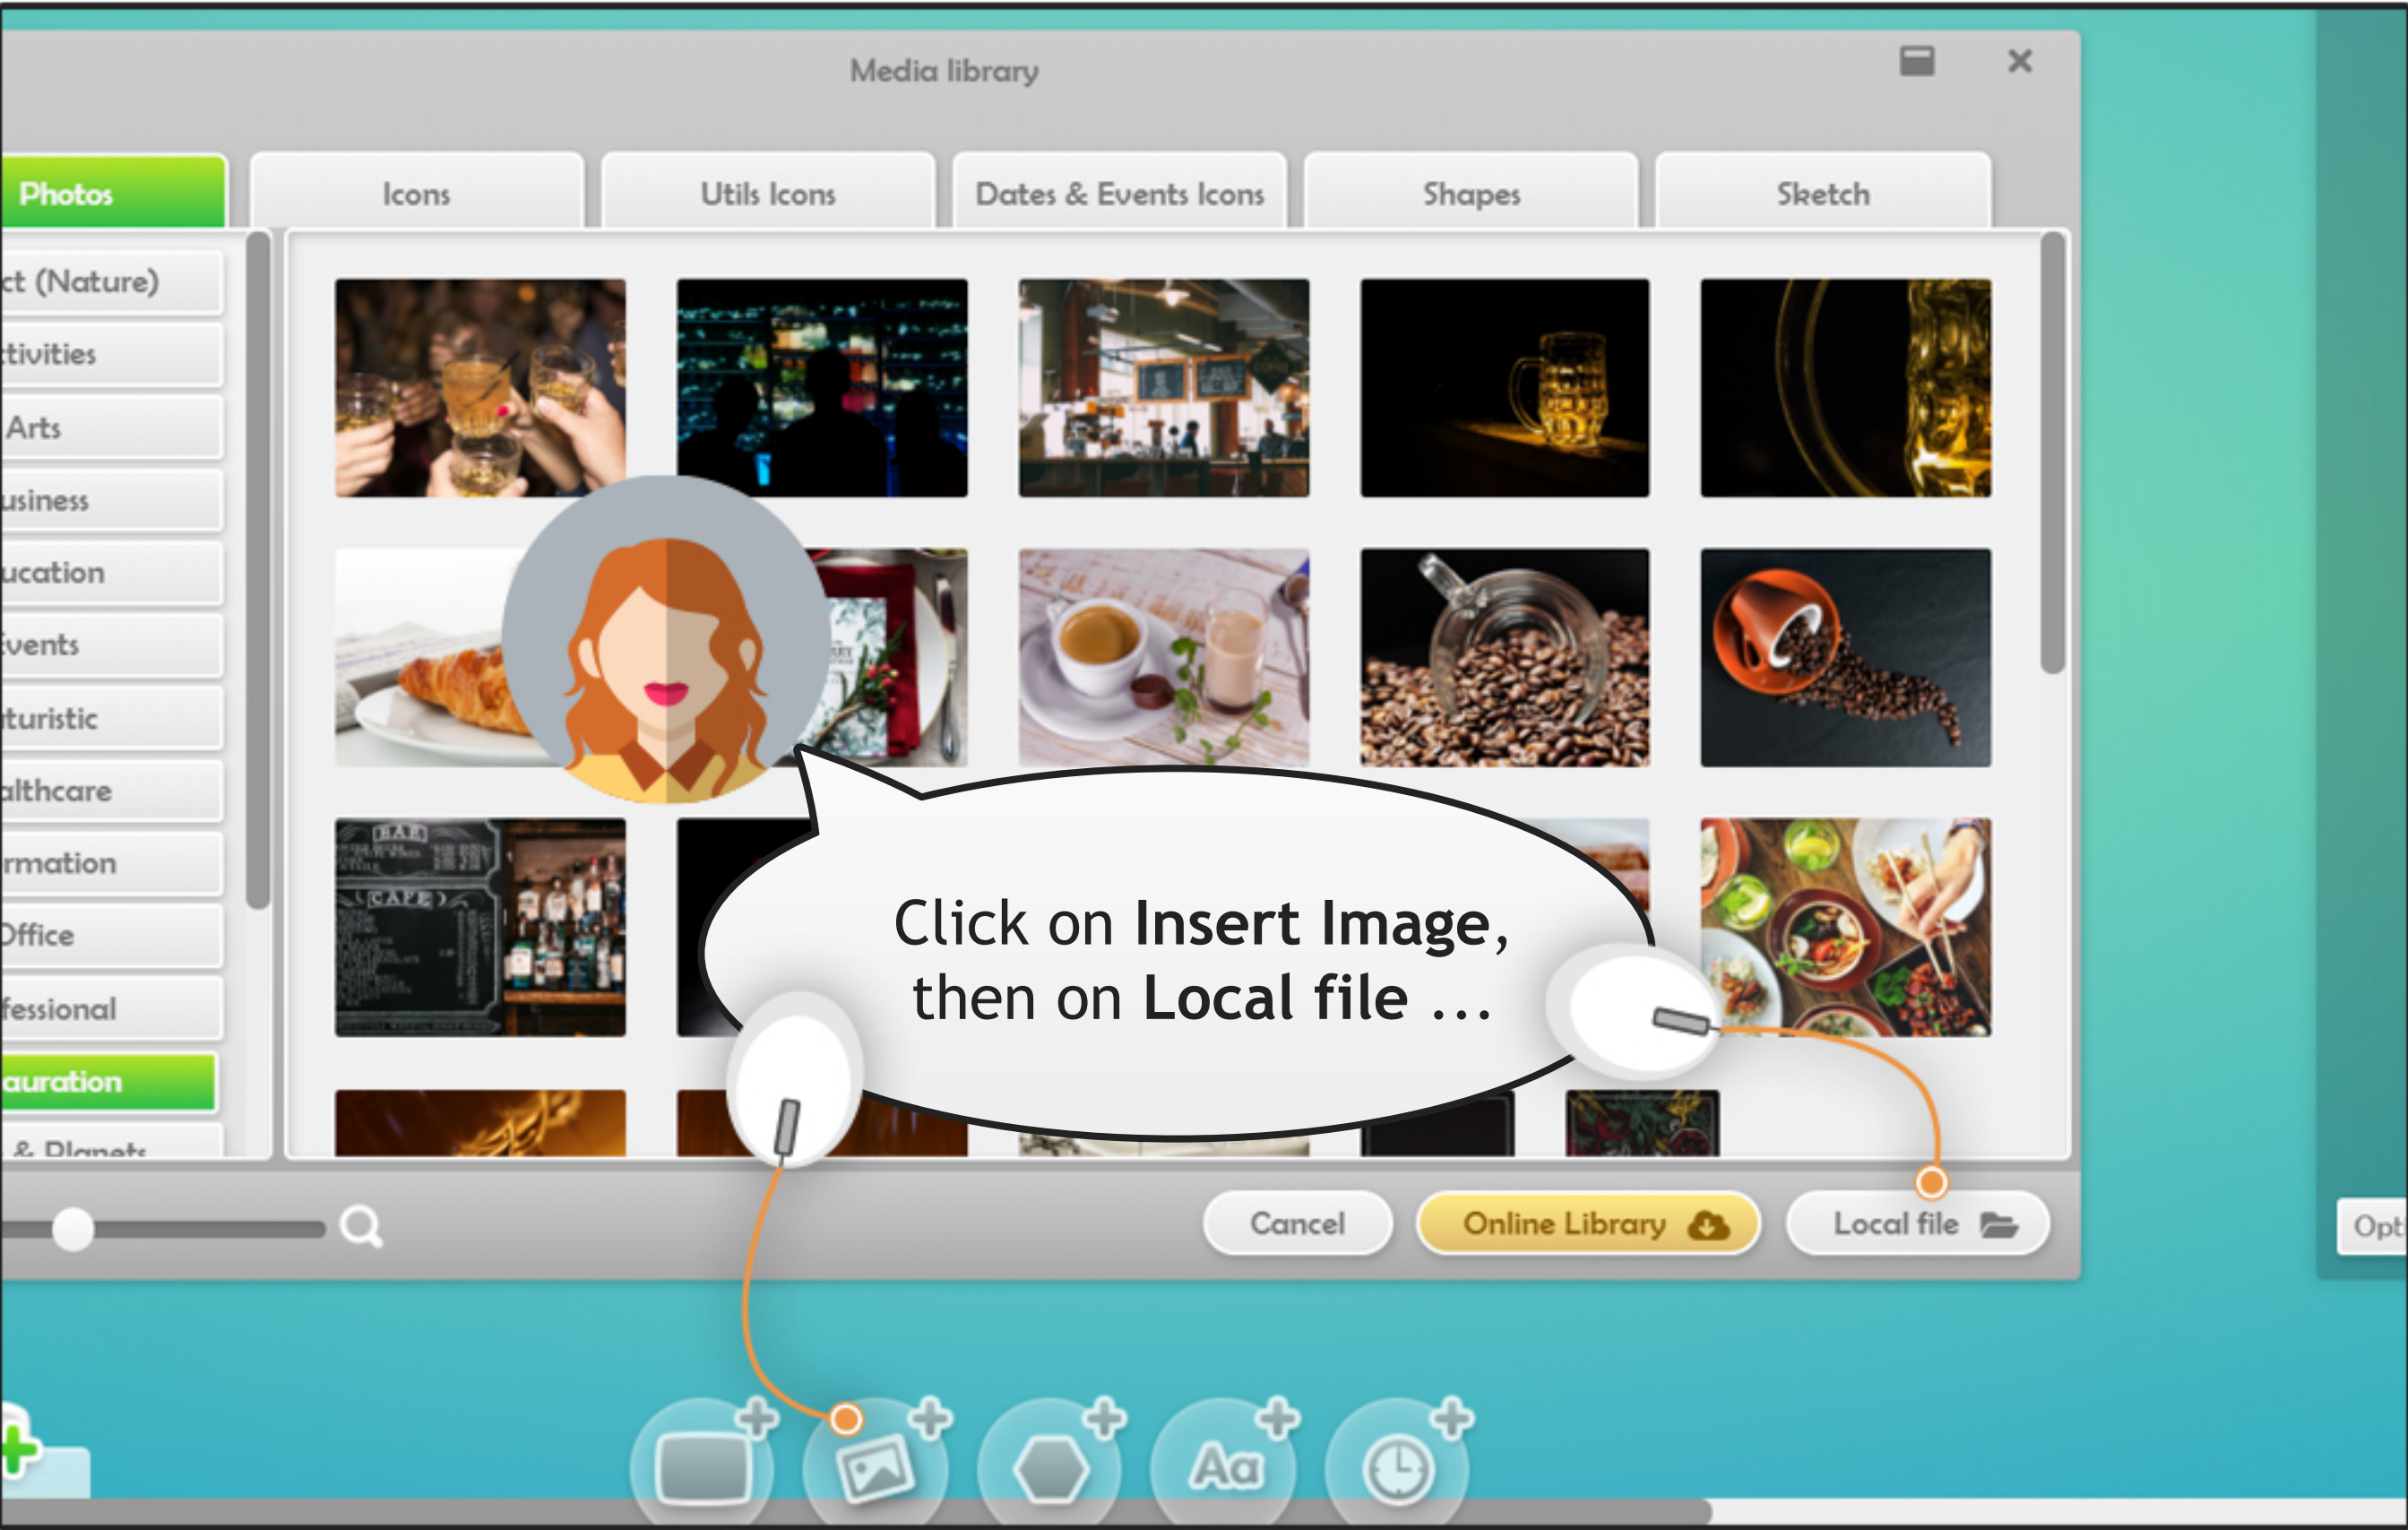

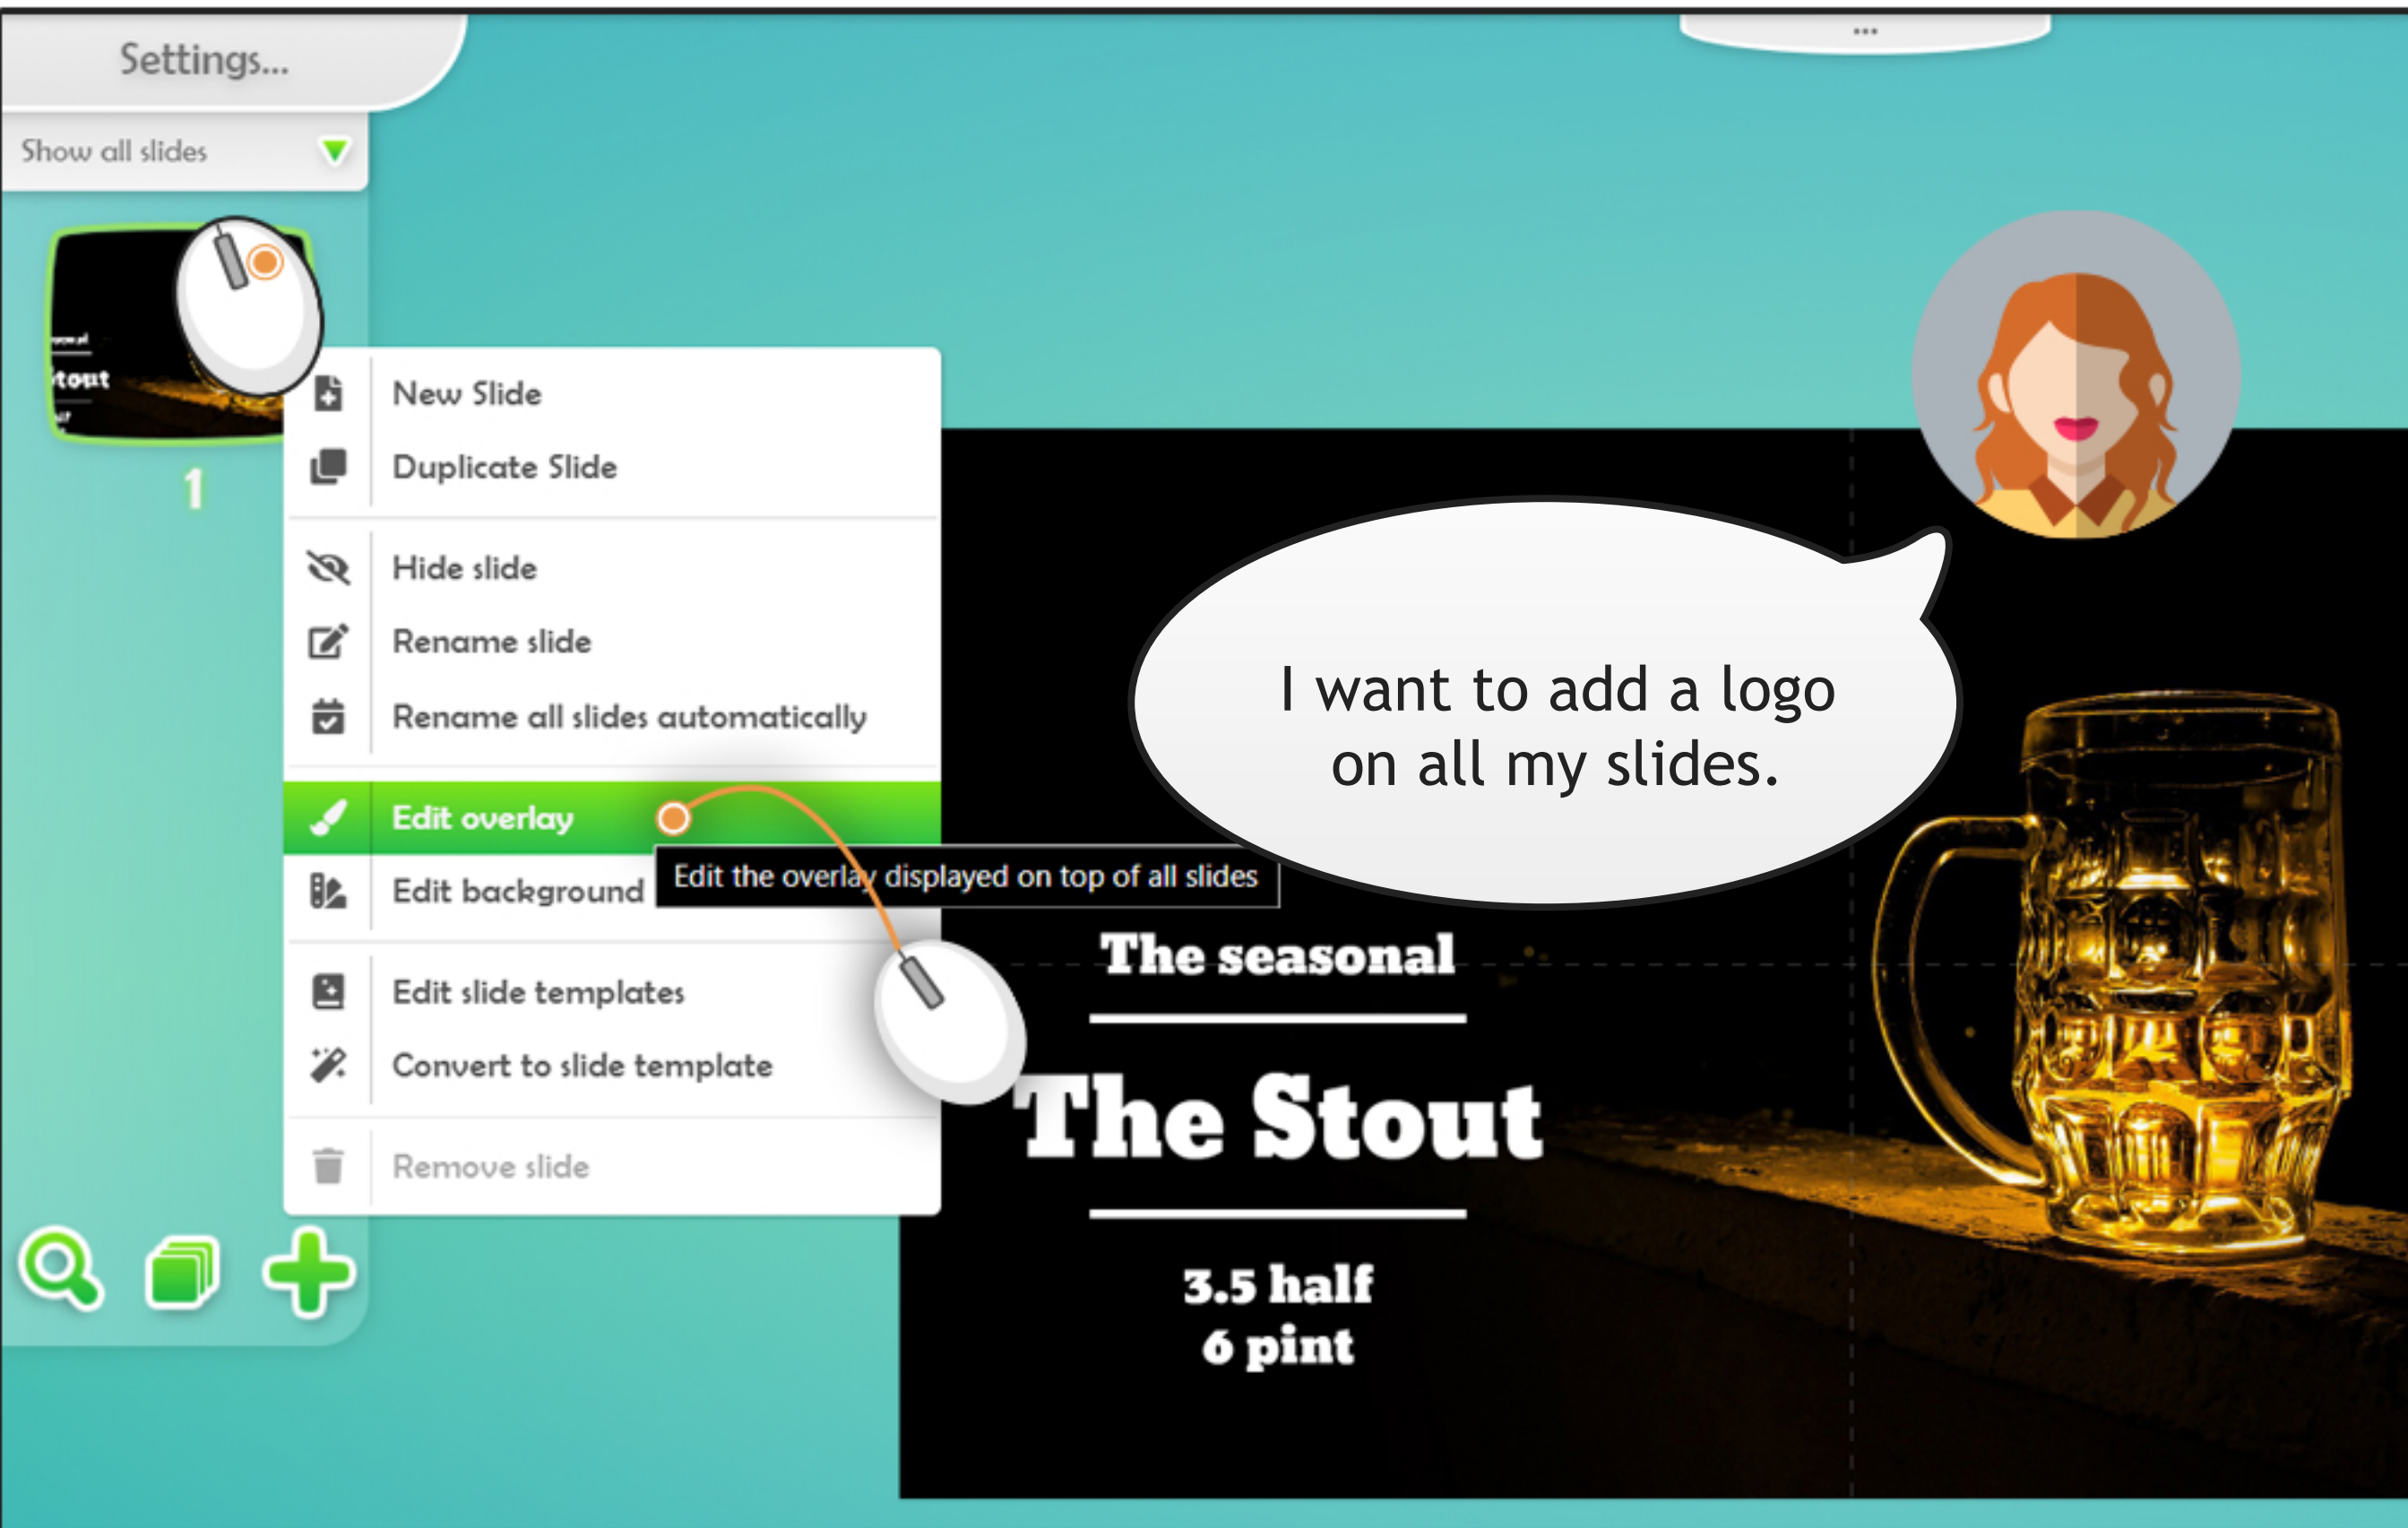

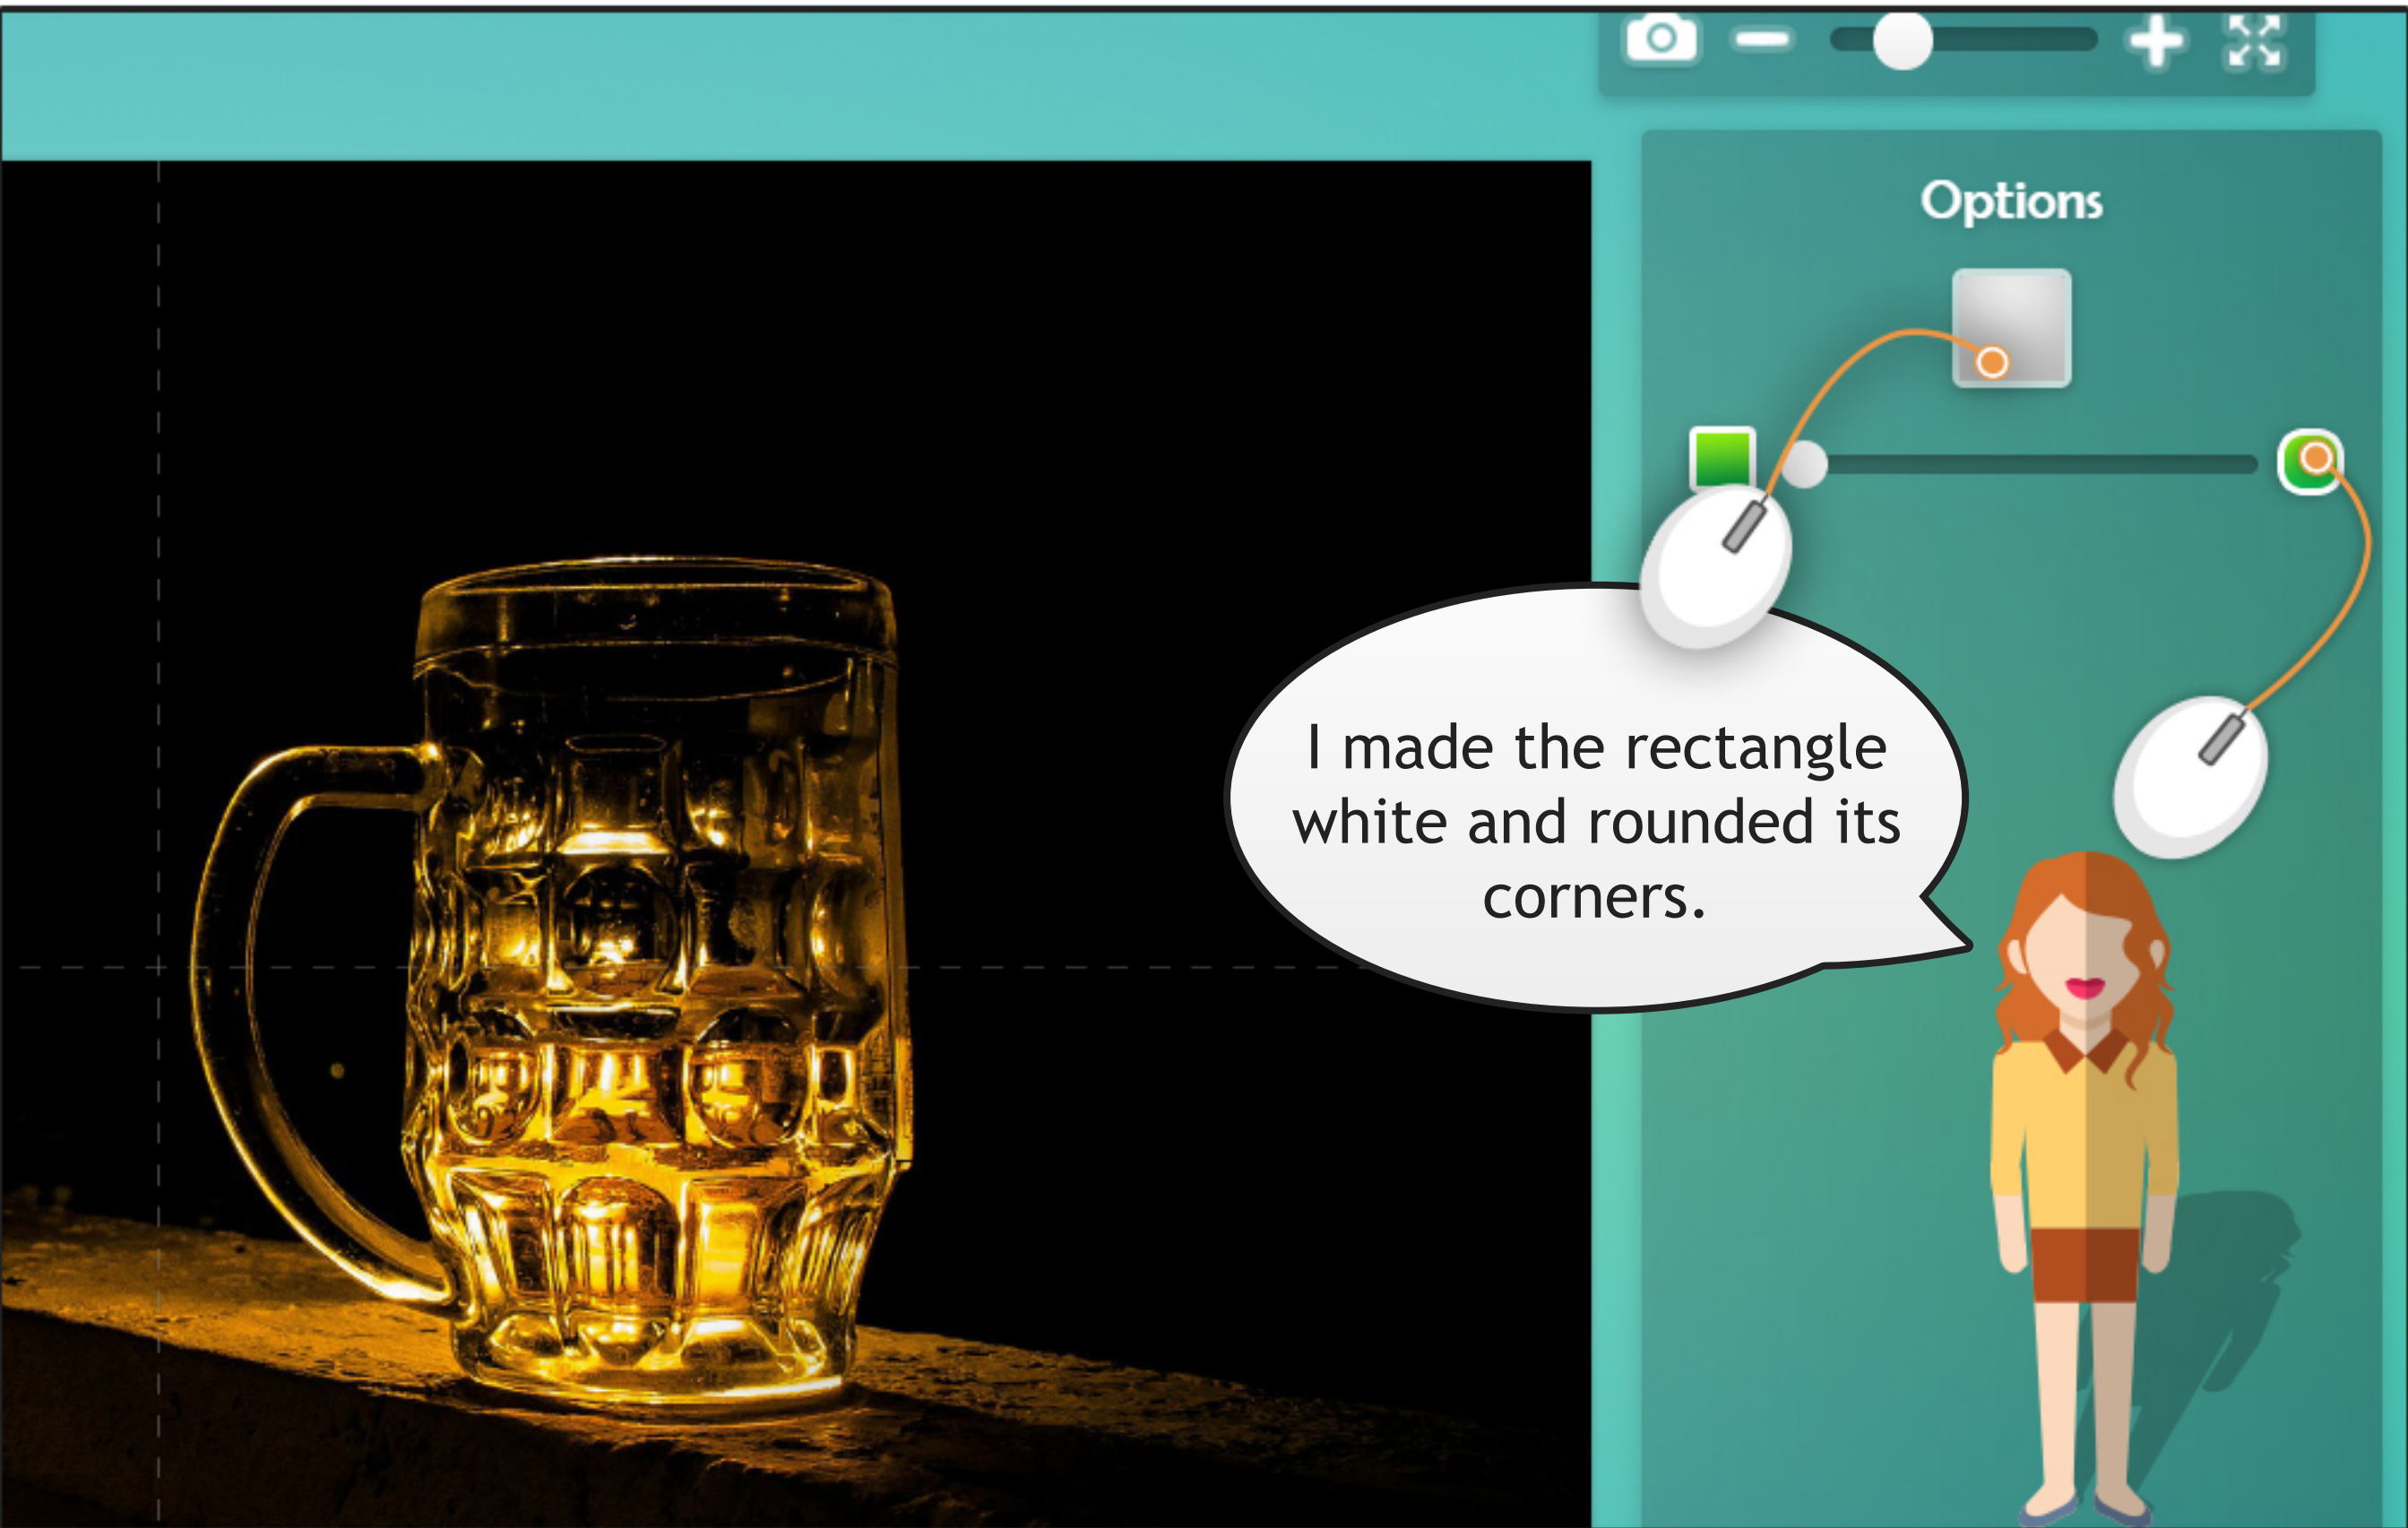

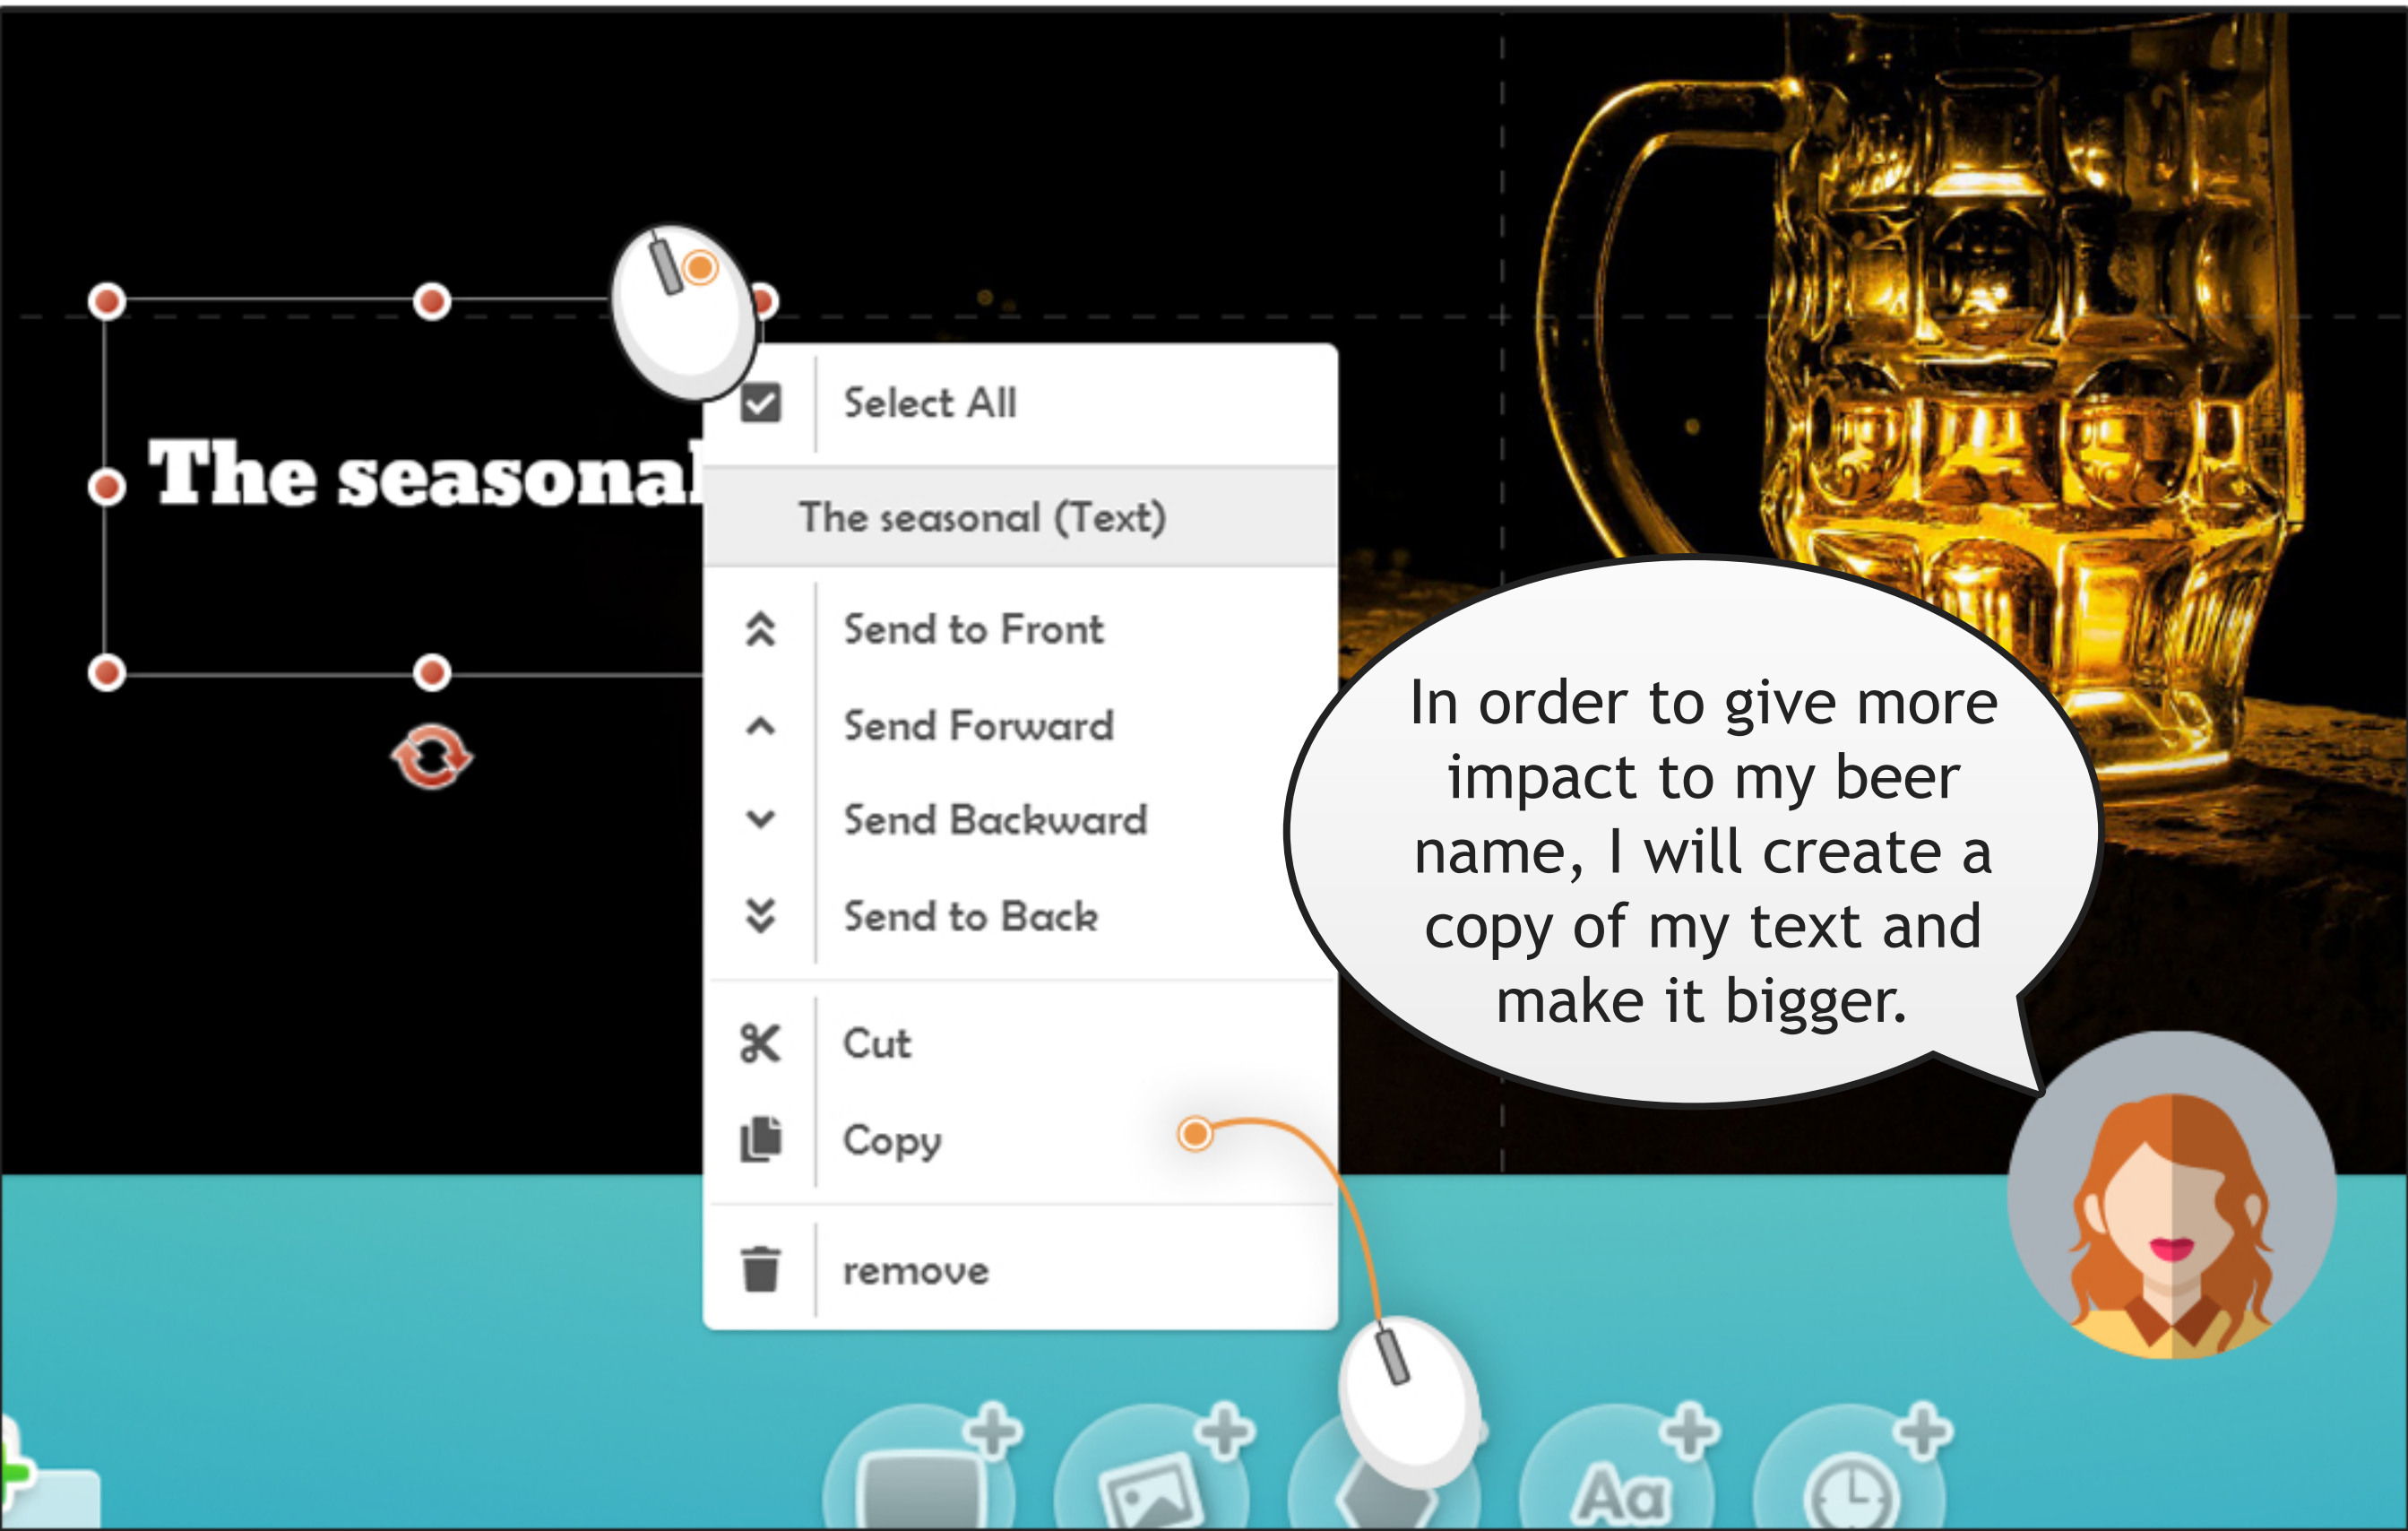

Bevan

52px

Text format: B, I, T

Add symbol, Add an Emoji

Character: Since the bottom is dark, I chose a white color for the text. Additionally, I modified these properties: - the typeface to Bevan - text to a larger size - the text to be centered

I would also like to display the time and date.
